

MICROSOFT SQL SERVER REPORTING SERVICES

2021 PORTFOLIO

Lynn Curtis

Welcome Prospective Client or Employer

This portfolio contains reports designed with Microsoft SQL Server Reporting Services 2019, tested with shared datasets and Report Builder 3.0.

SSRS is very much alive and active within hundreds of organizations. It remains a very secure, mature, and stable technology as an on-premise, cost-effective tool for enterprise reporting. Many capabilities of SSRS are still to be made available in PowerBI; being that some features readily accessible in SSRS, outside of paginated reports, require pieced together solutions of multiple development tools such as Azure, and more, wherever PowerBI falls short. SSRS continues to provide a great return on investment.

Reports contained herein are typical reports found anywhere. From invoices, to purchase orders, to employee communications — to sales reports, you'll find a sample here.

Should any design pique your interest, please reach out to me. I am available to assist with report development, data analysis, report migrations, business process streamlining and more.

I look forward to speaking with you,

Lynn Curtis

Dear David,

We sincerely congratulate you on completing 10 years of service! You are a consistent and reliable employee. Having you here as Marketing Manager is truly our pleasure.

Throughout the years we've witnessed your significant professional development. Hard work and diligence have earned you a respected place among employees. As your superiors admire you for your work, your colleagues also speak very highly of you. We are grateful to you for your service.

We expect you will continue to work with the same level of diligence and passion towards your work. We look forward to working with you for many years to come.

Once again, congratulations on your 10th anniversary as an esteemed employee.

Sincerely,

Lynn Curtis
